IBM Ring 313

The John Fedko Ring

presents

John Gaughan

Because of the very popular nature of this lecture, it is restricted to IBM Ring 313 Members. Members must have renewed their dues or completed a new member application by March 24, 2014 when the roster will be completed. No guests this evening.

John Gaughan has participated in the creation of several of the most spectacular grand illusions of the 20th century. He is a master of the design and construction of magical apparatus. There are few today with credentials on a par with Gaughan. John is the re-creator of the legendary magical apparatus known as "The Turk." The Turk was undefeated as a mechanical chess player. The Turk succumbed to a fiery death in 1854 until Maestro John Gaughan discovered plans that helped him bring the Turk out of the ashes and back into existence. Please visit the New York Times for more information.
